

**Dear Ma'am/Sir,**

I'm Mukesh Sharma, currently working as a Front-end Developer at Pay10 (Vartavun Logistics Private Limited).

Experienced Full Stack Developer with a demonstrated history of working in the Computer Software Industry. Skilled in Front-end Development & Back-end Development along with Debugging tools.

While pursuing graduation (B.Sc. Computer Science) from Guru Nanak Dev University (Punjab), I had participated in Hackathons under which i worked in Angular 4 to make PWA web app for the **Teach For India**. I developed the PWA web app to events to find suitable volunteers for Teach For India campaign. My role was to develop the front-end of the web app.

- **Technologies Used :** MYSQL, BOOTSTRAP, ANGULAR 4, NODE JS, EXPRESS
- **URL:** [https://bitbucket.org/Narayan\\_1806/find-a-volunteer](https://bitbucket.org/Narayan_1806/find-a-volunteer)

Currently working as Front-end Developer, UX/UI Developer in a New Delhi based startup Pay10. My role in Pay10 is a web developer and i am involved in the Front-end. The project was created using Laravel in Backend and Bootstrap and React.js in Front-end Development .

- **Technologies Used :** PHP, MYSQL, BOOTSTRAP, JQUERY, LARAVEL, REACTJS
- **URL:** <http://pay10.co/>

I worked for Equate which is a New Delhi Blockchain based "Online Skills Assessments" platform that uses "Proof of Assessments" by leveraging "Artificial Intelligence" powered "Smart Contracts". My role in EQUATE was as a Web Developer and I was actively involved in the Front-end and Back-end of the project. The project was created using PHP Blockchain in Backend and Bootstrap and Jquery.

- **Technologies Used :** PHP, MYSQL, BOOTSTRAP, JAVASCRIPT, BLOCKCHAIN
- **URL:** <http://equateplatform.io/>

I worked for Equate ICO EQ8 Coin, that solves the primary concern of transparency as all transactions are generated by the EQ8 token. Being a utility token the usage of the EQ8 token are enormous, right from paying for fee, for online assessments to booking of test centers globally and even generation of immutable certifications. My role in EQUATE was a Web Developer and I was actively involved in the Front-end and Back-end of the project. The project was created using PHP Blockchain in Backend and Bootstrap and Jquery.

- **Technologies Used :** PHP, MYSQL, BOOTSTRAP, BLOCKCHAIN
- **URL:** <http://ico.equateplatform.io/>

I worked for XEDIGN which is a New Delhi based Startup, a community of world's best creative minds to solve product design challenges. My role in XEDIGN was as a Web developer and I was actively involved in the Front-end. The project was created using PHP in Backend and Bootstrap and Jquery.

- **Technologies Used :** LARAVEL, MYSQL, BOOTSTRAP, JQUERY
- **URL:** <http://xedign.com/>

I worked for Brainchain Technologies Pvt. Ltd. which is a New Delhi based Startup India's Blockchain Hub. They are a blockchain consulting firm offering services right from concept development to Advisory, Marketing, legal and Technical support. It transforms ideas into successful ventures. My role in Brainchain was as a Web developer and I was involved in the Front-end. The project was created using Javascript in Backend and Bootstrap and Jquery.

- **Technologies Used** : PHP, MYSQL, BOOTSTRAP, JQUERY.
- **URL:** <http://brainchain.in/>

I worked for Retalis which is Amritsar based startup who find best restaurants in amritsar city and order online. My role in Foodkort was as a Full Stack developer and i was involved in the Front-end as well as Backend. The project was created using PHP in Backend and Bootstrap and JQuery.

- **Technologies Used** : PHP, MYSQL, BOOTSTRAP, JQUERY.
- **URL:** <http://foodkort.in/>
